Experience

TD Canada Trust Jan 2022 - Current
Personal Banking Associate

- Engage customers in day-to-day advice needs, service transactions, digital education, and customer problem resolution related to banking solutions.
- Understand customer needs and guide them to the right contact person for appropriate solutions while exercising good judgement in confidential matters.
- Build customer confidence on emerging digital banking trends by educating them on mobile, ATM, and online banking.

TD Canada Trust Mar 2021 – Dec 2021
Customer Experience Associate

- Process financial transactions like deposits, withdrawals and bill payments as per standardized operating procedures and TD's Code of Conduct and Ethics.
- Understand and determine customer needs to recommend solutions specific to those needs while exercising discretion in confidential matters.
- Achieve assigned goals and business objectives by promoting banking solutions and completing business processes in a timely and accurate manner.

Centrétudes Apr 2019 - Current
Tutor

- Conduct one-on-one tutoring sessions for elementary and high school students in mathematics and sciences.
- Lead weekly discussions with students and parents to identify and work on their difficulties.
- Enhance student learning by optimizing a wide range of instructional approaches and innovative classroom activities.

Bell Technical Solutions

May 2019 – Aug 2019

Field Service Technician

- Install, repair and maintain Bell Canada's advanced Fiber and Copper Network while adhering to health and safety protocols.
- Troubleshoot complex telecommunications issues using tools and equipment provided.

Best Buy Canada

Jun 2017 – Aug 2017

Sales Associate

- Drive sales through customer engagement, suggestive selling and sharing product knowledge.
- Process payments by totaling purchases, processing cash, and store or other credit and debit cards.
- Achieve assigned goals by promoting Best Buys' products and services (warranty and memberships) based on customer needs.

Projects

Initial Embedded System Project- INF1900 | [Github](#) | [Course](#)

- Built a simulated robot based on an ATmega8 microprocessor on a Linux environment.
- Developed the interactions between software and hardware required to create a simple system with its inputs, outputs and peripherals in C/C++ using the AVR library and Makefiles.

E-commerce Website | [Github](#)

- Designed the website using HTML, CSS (+BEM), JavaScript and ReactJS best practices.
- Included SEO, responsive and skeleton loading states to improve user experience.

Recipes Website | [Github](#)

- Developed a fullstack recipes website using HTML, CSS, JavaScript and MERN (MongoDB, Express, React, NodeJS).
- Implemented unit tests and Jest technology (Mock, Stub, Spy).

Technical Skills

Proficient: [Python, C++, HTML, CSS, JavaScript, React, Git, Microsoft Office]**Familiar:** [NodeJS, MongoDB, Express/Ajax, JSON]
